## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 02 April 2008 has been entered.

### ***Response to Amendment***

2. Applicant's amendment filed 02 April 2008 amends claims 3 and 21. Applicant's amendment has been fully considered and entered.

### ***Response to Arguments***

3. Applicant's argument "the user public key in Slick is used to encrypt the printer-key-encrypted symmetric key of Slick thereby producing twice-encrypted symmetric key 512" has been fully considered and is persuasive. The previous rejections have been withdrawn.

### ***Allowable Subject Matter***

4. Claims 1-28 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose or make obvious an identity-based encryption system that encrypts message data using a first identity-based public key. The first identity-based public key is encrypted with a second identity-based public key such that a recipient of the encrypted data can decrypt the first identity-based public key using the private key associated with the second identity-based public key, and

ultimately decrypt the message data using the private key associated with the first identity-based public key.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*
